

TECHNICAL SPECIFICATION

Product Features

1 Curved Anti-Glare Design

Modern curved surface design helps reduce glare while providing a softer and more comfortable lighting effect. Ideal for **living rooms, bedrooms, hotels, galleries, and commercial lighting.**

2 12W High Efficiency LED

Equipped with a **12W integrated LED module**, delivering bright and energy-efficient lighting while consuming less power compared to traditional lighting.

3 Multiple Color Temperatures

Available in **3000K Warm White / 4000K Natural White / 6500K Cool White**, allowing you to choose the perfect lighting atmosphere for different environments.

4 Narrow 24° Beam Angle

The **24° focused beam angle** creates precise and directional lighting, perfect for **accent lighting, wall washing, artwork, retail displays, and highlighting architectural details.**

5 High Color Rendering CRI ≥90

With **CRI ≥90**, the spotlight accurately restores the true colors of objects, making it ideal for **retail stores, showrooms, and high-end residential lighting.**
